Summery

Frontend Developer specializing in **modern, performance-driven UI development**, with proven experience building **scalable, responsive, and user-focused interfaces** using **React, Next.js, Tailwind CSS, and TypeScript**. While my primary expertise is frontend, I also bring **hands-on backend knowledge in Node.js and Express**, allowing me to deliver **end-to-end** features and work efficiently across the stack.

Technical Skills

- Languages: **HTML5, CSS3, JavaScript (ES6+), TypeScript, SQL, Node JS**
- Frameworks: **React, Next.js, Express JS, Tailwind CSS, Bootstrap, MongoDB, Postgres SQL**
- Tools: **Git, Webpack, VS Code, Figma, NPM, Bit Bucket**
- State Management: **Context API, Redux Toolkit**
- Soft Skills: **Collaboration, Problem-Solving, Time Management**

Experience

Propil Technologies And Advisors Pvt Ltd

Frontend Developer Intern | August 2025 – Feb 2026 (6 Months)

Projects: Property Verification Platform

*Developed a comprehensive, public-facing **property verification platform** designed to help users verify properties, discover company services, and complete customer onboarding through a smooth, SEO-optimized web experience. The platform was built with **Next.js** and focused on performance, scalability, and search visibility. It included an interactive **Prop-Map** feature powered by **Mapbox**, allowing users to explore and visualize property locations dynamically, making property discovery more intuitive and data-driven. Additionally, I implemented a **Prop-News** module that automatically updates daily with property and company-related news, ensuring fresh content and improving user engagement and repeat visits. The website also featured dynamic service pages, optimized landing pages, and a responsive UI to deliver a consistent experience across devices, helping strengthen user trust and the overall credibility of the property verification process.*

Role & Responsibilities:

- Developed and maintained the company website and internal web applications using Next.js.
- Built responsive, SEO-friendly UI components and pages.
- Collaborated with designers and backend developers to deliver scalable web solutions.
- Participated in testing, bug fixing, and deployment support to ensure smooth production releases.

Three Artisans Multiservices

Frontend Developer Intern | June 2025 – August 2025 (3 Months)

Projects: Portfolio Projects & HRMS Web Application

*During my internship, I independently led the end-to-end development of two portfolio projects and an HRMS platform, taking full ownership from **requirement understanding and planning to UI/UX design, frontend development, API integration, testing, and deployment**. I built **responsive, production-ready user interfaces** with a strong focus on usability, performance, and cross-device compatibility. I implemented **core frontend features** and integrated **REST APIs** with backend services to deliver real-world, data-driven functionality. I was also responsible for structuring the application architecture, writing clean and maintainable code, and optimizing performance to ensure smooth and fast user experiences. Throughout the internship, I collaborated closely with team members for reviews and feedback, but executed the complete development lifecycle myself, gaining hands-on experience in delivering **scalable, business-ready applications** to production.*

Role & Responsibilities:

- Developed responsive user interfaces for two portfolio projects and an HRMS platform.
- Implemented core frontend features and integrated REST APIs with backend services.
- Collaborated with the team to enhance usability and improve application performance.

Education

10th Jawahar Hight School, Nagpur

June 2019 – May 2021

[Maharashtra State Board of Secondary and Higher Secondary Education, Pune]

Obtained Marks: 69.40 %

12th L.R.T. Collage of Commerce, Akola

[Maharashtra State Board of Secondary and Higher Secondary Education, Pune]

Obtained Marks: 82.83 %

Bachelor of Computer Application,

[G H Raisonni University], [Amravati, Maharashtra]

June 2023 – May 2026

- **CGPA: 8.5/10**

Academic Projects

CRM (Customer Relation Management)

Developed a **full-stack CRM system** to manage **employee tasks and team collaboration** with a structured **task lifecycle workflow (Todo → In Progress → Review → Testing → Deployment)**. Implemented **employee work session tracking, attendance management, and calendar-based work log visualization**. Built **task-based chat** and **organization-wide real-time communication** with **video meetings** using **ZEGOCLOUD SDK**. Designed a **secure file management module** with **role-based access control** and implemented **JWT-based authentication**. Developed **RESTful APIs** using **Node.js, Express.js, and MySQL** with a **modular backend architecture**.

Alumni Portal

- Developed a **full-stack web application** to connect college alumni using **React for the front-end** and **Node.js, Express.js for the backend** with **MySQL database**. Implemented **user registration, profile management, event announcements, and a messaging system** to enhance community engagement, and designed a **responsive UI** for a smooth experience across devices using **Tailwind CSS**.

Certifications

- **Full Stack Development Certificate Of course Completion:** Udemy (Instructor: Do Angelia), Completed [June 2025]
- **Rackathon Participation Certificate:** GH Rasoni University, [March 2025]

Achievements

- Earned Rackathon Participation Certificate from GH Rasoni University for successfully completing the rackathon event.
- Completed Full Stack Development Certification from Udemy (Instructor: Du Angelia).
- Awarded Best Project for Alumni Portal during college tech fest.
